Dear Music Lover,

I am quite pleased to write a letter of reference for Colin O'Brien. Colin performed at a Sweetwater Sea Concert just last week, so the evening is still very fresh in my mind.

Colin was very professional and easy to work with. When we booked the concert he said that he would do some promotion, and he followed through with this. He arrived two hours before the concert so that he could attend a community potluck dinner with the volunteers. Many people commented to me that he was friendly and fun to meet. Colin brought the sound equipment, as requested.

Colin's music was flawless and quite amazing. He seemed to sense what the crowd wanted and adapted his songs and style accordingly. He is a unique performer who can do a broad range of different types of music in a two hour show. I heard several gasps from the crowd when Colin loosened the strings to play a Hawaiian style guitar technique. His foot percussion was joyful and whimsical. Colin also played some very beautiful instrumental pieces.

I am sure that you will enjoy working with, and listening to Colin O'Brien.

Yours in community,
Jill Iverson
